

Gautam Anand

Full Stack Developer

Mohali, Punjab, India | +91 7717484812 | gautam.anand.ptu@gmail.com
github.com/Agent-Gautam | linkedin.com/in/gautam-anand-ptu

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Redux Toolkit, Context API, JavaScript (ES6+), TypeScript, Tailwind CSS, shadcn/ui, responsive design, SSR/SSG/CSR rendering

Backend & APIs: Node.js, Express, RESTful APIs, JSON Web Token (JWT), role-based access control, PostgreSQL, MongoDB, Prisma, Supabase

Testing & Tools: Git, GitHub, npm, Vitest, Jest, ESLint, Prettier, Agile/Scrum, code review

Languages: JavaScript, TypeScript, C++, C, Python, SQL

CS Foundations: Data Structures & Algorithms, Problem Solving, OOP, SDLC

EXPERIENCE

Software Engineer Intern (Frontend)

Jun 2025 – Jun 2026

KoinX

Remote

- Shipped 11 production features across 7 repositories in a fast-moving startup codebase, working primarily in React/TypeScript/Next.js and navigating an unfamiliar large-scale codebase by tracing existing patterns before extending them.
- Owned the transaction-categorization and internal-transfer surface of KoinX's accounting platform across 12 shipped changes — categorization flows, uncategorize/re-recognize actions, workspace-level transfer settings (React, TypeScript, Redux Toolkit).
- Drove frontend performance work in the final phase — bundle-size reduction, component memoization, and a dependency audit removing unused packages.

Full Stack Developer

Dec 2024 – Feb 2025

Pixels and Grids

Remote

- Built full-stack seller and buyer modules for a multi-vendor e-commerce platform (KollaBee), including product CRUD with multi-image uploads (cover, thumbnail, detail) to Supabase, dynamic order/analytics dashboards, and an integrated Razorpay checkout flow.
- Implemented the database and authentication layer for a SaaS platform (Conceevo) using Prisma ORM, and shipped a bulk HTML email marketing feature that targeted users opted into platform updates.

PROJECTS

CryptoTax Buddy | *React, Next.js, Node.js, Express, TypeScript, PostgreSQL, Prisma*

Solo project

- Built a REST API backend on Node.js and Express (TypeScript, Prisma/PostgreSQL) with full JWT authentication — OTP registration, access/refresh-token rotation, and per-device session revocation.
- Built the Next.js App Router frontend (React, TanStack Query, shadcn/Tailwind) with a streaming AI assistant whose figures come from real database-backed tool calls rather than model-generated text.

Faculty Feedback | *React, Next.js, TypeScript, MongoDB → PostgreSQL, Prisma*

Solo project

- Re-platformed a JavaScript/MongoDB prototype into a multi-tenant TypeScript app (Next.js App Router, React Server Components) with five role-based portals and JSON Web Token (JWT) / OTP authentication.

Blood Link | *React, Next.js, TypeScript, Supabase (PostgreSQL/PostGIS), Tailwind CSS*

Solo project

- Built a full-stack, location-aware blood-donation platform with role-gated donor/organisation/admin access (41 row-level-security policies across 13 tables) and distance-ranked map search over hand-written PostGIS functions.

EDUCATION

I.K. Gujral Punjab Technical University

2022 – 2026

B.Tech, Computer Science (CGPA: 8.6/10)

Punjab, India

NIELIT

2024

Full Stack Web Development Training (Grade S, 80%+)

CERTIFICATIONS

Google Cloud Foundations (Google Cloud); JavaScript Algorithms & Data Structures (freeCodeCamp); Node.js, Express.js & SQL (Scrimba).
