

Gautam Anand

ReactJS Developer

Mohali, Punjab, India | +91 7717484812 | gautam.anand.ptu@gmail.com
github.com/Agent-Gautam | linkedin.com/in/gautam-anand-ptu

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Redux Toolkit, React Query (TanStack Query), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, MUI, Sass, Recharts, responsive design

Backend & APIs: Node.js, Express, RESTful APIs, JSON Web Token (JWT) auth, PostgreSQL, Prisma, Supabase

Testing & Tools: Git, GitHub, npm, Vitest, Jest, ESLint, Prettier, Agile/Scrum, code review

Languages: JavaScript, TypeScript, C++, C, Python, SQL

CS Foundations: Data Structures & Algorithms, Problem Solving, OOP, SDLC

EXPERIENCE

Software Engineer Intern (Frontend)

Jun 2025 – Jun 2026

KoinX

Remote

- Shipped 11 production features across 7 repositories in a fast-moving startup codebase, working primarily in React/TypeScript/Next.js and navigating an unfamiliar large-scale codebase by tracing existing patterns before extending them.
- Contributed 19 PRs to xui, the org's shared component library consumed by three products — charting suite, OTP input, virtualized-select refactor, and a precision-loss warning on financial amount display.
- Owned the transaction-categorization and internal-transfer surface of KoinX's accounting platform across 12 shipped changes — categorization flows, uncategorize/re-recognize actions, workspace-level transfer settings (React, TypeScript, Redux Toolkit).
- Drove frontend performance work in the final phase — bundle-size reduction, component memoization, and a dependency audit removing unused packages.

Full Stack Developer

Dec 2024 – Feb 2025

Pixels and Grids

Remote

- Delivered UI/UX features across 4 client projects, including conditional discount logic in an admin pricing panel, responsive navigation/search fixes, and reusable CMS-driven public pages.
- Built a dynamic seller dashboard shell with a sidebar reflecting live route/user state and a reusable page header component, used across the seller-side experience.

PROJECTS

CryptoTax Buddy | *React, Next.js, TypeScript, TanStack Query, Node.js, Express, PostgreSQL* *Solo project*

- Built the Next.js App Router frontend (React, TanStack Query for server state, shadcn/Tailwind) with a streaming AI assistant whose figures come from real database-backed tool calls rather than model-generated text.
- Designed a deterministic FIFO tax engine for Indian VDA rules with decimal-precision arithmetic, covered by 27 Vitest unit tests.

Faculty Feedback | *React, Next.js, TypeScript, PostgreSQL, Prisma, Recharts*

Solo project

- Re-platformed a JavaScript/MongoDB prototype into a multi-tenant TypeScript app (Next.js App Router, React Server Components) with role-based Recharts dashboards and JSON Web Token (JWT) / OTP authentication.

Blood Link | *React, Next.js, TypeScript, Supabase (PostgreSQL/PostGIS), Tailwind CSS*

Solo project

- Built a location-aware blood-donation platform: distance-ranked nearby-camp search over hand-written PostGIS functions, secured by 41 row-level-security policies across 13 tables.

EDUCATION

I.K. Gujral Punjab Technical University

2022 – 2026

B.Tech, Computer Science (CGPA: 8.6/10)

Punjab, India

NIELIT

2024

Full Stack Web Development Training (Grade S, 80%+)

CERTIFICATIONS

Google Cloud Foundations (Google Cloud); JavaScript Algorithms & Data Structures (freeCodeCamp); Node.js, Express.js & SQL (Scrimba).
